In order to support our growth, we are currently seeking a highly motivated

Application Engineer

As a member of our newly formed North American team, your mission will be to provide technical support to our customers, to perform engineering feasibility studies, and to assist with other general office duties. You will play an important role in passing on the know-how and providing key competencies to our customers in the fields of flexible feeding, machine vision, robotics, PLC programming, general automation and process optimization.

Your tasks:

- Support sales effort by performing and documenting feasibility studies
- Provide technical support (pre / post sales) per email, phone and/or in person
- Maintain knowledge database and collaborate to facilitate the rapid resolution of customer issues
- Assist in logistics, shipping, and other various tasks on occasion.

Your qualifications:

- 2–4-year technical degree in industrial automation, robotics, mechanical or electrical field
- 0-2 years experience in a related position
- Machine vision experience, knowledge and experience of PLC programming is a plus
- Professional fluency in Microsoft Office Suite
- Experience in video editing is a plus
- Fluent in English; knowledge of French desirable
- Engaged, customer oriented, organized, responsible and independent personality with excellent interpersonal skills
- Availability to travel (Domestic as well as International), driver's license required.

We offer an interesting position with a variety of responsibilities as described above. This full-time position is located at Asyri US Inc. (Minneapolis, MN). Asyri's headquarters are located in Villaz-St-Pierre, Switzerland. You have the chance to join a dynamic team and actively contribute to the international growth of an inclusive, synergetic, and thriving company.

Begin: immediately or upon agreement.
