Application Engineer

ENTRY-LEVEL POSITION / SPANISH SPEAKING / LOCAL

As a member of our North American team, your mission will be to provide technical support to our customers, to perform engineering feasibility studies, and to assist with other general office duties. You will play an important role in passing on the know-how and providing key competencies to our customers in the fields of flexible feeding, machine vision, robotics, PLC programming, general automation and process optimization.

Your tasks:

- Support sales effort by performing and documenting feasibility studies
- Provide technical support (pre / post sales) per email, phone and/or in person
- Maintain knowledge database and collaborate to facilitate the rapid resolution of customer issues
- Assist in logistics, shipping, and other various tasks on occasion

Your qualifications:

- 2–4-year technical degree in industrial automation, robotics, mechanical or electrical field
- 0-2 years relevant experience in a related position desirable
- Machine vision experience, knowledge and experience of PLC programming is preferred
- Professional fluency in Microsoft Office Suite
- Fluent in English and Spanish
- Engaged, customer oriented, organized, responsible and independent personality with excellent interpersonal skills
- Availability to travel (Domestic as well as International), driver's license required

We offer an interesting position with a variety of responsibilities as described above. This full-time position is located at Asyri US Inc. (Minneapolis, MN). Asyri's headquarters are located in Switzerland. You have the chance to join a dynamic team and actively contribute to the international growth of an inclusive, synergetic, and thriving company.

Beginning: immediately or upon agreement.
