To support our growth, we are currently seeking a highly motivated

## **Product Owner / Product Manager Automation**

**80 - 100%**

As a member of our Product Management Office (PMO), your role is to maximize the business value produced by the product development team ensuring new products and features meet our customer's needs. Under the responsibility of the Head of Product Management, you will be a member of the agile team in close relationship with Product Marketing, Product Development, and our customers.

### **Your tasks:**

- Describe and detail desired functionalities as "User Stories" to enable a customer focused Product Development
- Continuously review and prioritize customer needs (backlog) to ensure business objectives are achieved
- Participate actively to scrum events (Program Increment Planning, sprint reviews, demos to stakeholders ...)
- Participate to Product Roadmap definition with strategic stakeholders
- Run beta-test programs with early-stage products or features with key customers
- Support Product Marketing during product launch phases to ensure a compelling message
- Work closely with Product Marketing and Application Engineers to gather feedback from customers
- Act as a Product Champion supporting our Application Engineers on specific customers applications

### **Your qualifications:**

- Former experience in the industrial automation environment (such as robotics, robot peripherals, industrial vision, industrial software or other connected fields)
- Customer oriented, organized, reliable and independent personality with excellent interpersonal skills
- Strong communication skills to formulate customer needs in a comprehensible manner
- Ability to work in a fast-paced and agile environment
- Successful experience as Application Engineer, Product Owner or Product Manager in an Agile and design thinking environment, a plus
- Fluent in French and English, German a plus
- Prepared to travel and work away from home c.a. 20% of the time, driving license required

We offer an interesting position with varied activities. Asyril's headquarters are located at the technology park "Le Vivier", in Villaz-St-Pierre, housing several high-technology companies. You have the chance to join a dynamic team and contribute actively to the international growth of the company.

Starting date: immediately or upon agreement.

Seize this opportunity to join our teams by sending us your complete application (cover letter, CV, diplomas, work certificates) through : <https://nivalis-group-flexperso.ch/cv/?cid=nivalis-group&showid=119>
